- ◆ Disaster Public Health Nursing
- ◆ Public Health Nursing of International Radiation Exposure, etc.

[Expected Students]

- University graduates
- Public health nurse
- Nurses etc.

Practical training in Kawauchi village

Visit to the Decommissioning Museum

Communication with elementary school children

Emergency medicine training

Group discussion

Career Prospects

Graduates will play an active part in medical institutions, transportation agencies, local governments, related ministries and agencies, depending on the disaster.

In ultra-acute/ acute period, graduates will be able to respond to health problems with their coordination capability and crisis communication skills.

Also, at ordinary times and recovery period, they can cope with problems regarding preventing disasters, health effects on residents and risk communication, etc.

- **Medical Science Course** aims to foster professionals who are able to engage in various disaster response both foreign and domestic based on the expert knowledge. These include, but not limited to **Disaster Medical Response** including Radiation Disaster, **Disaster Readiness Plan, Medical Activities and Mental Health Care** at evacuation center or temporary housing complex, and **Risk Communication**.
- **Nursing Course** aims to foster Nurses and Health Nurses who are able to engage in the field of **Clinical Radiology** based on the specialized knowledge of Radiation Protection and Radiation Health Risk Communication.

International Academic Exchange

Academic Cooperation with 7 Universities

country	University
China	• Wuhan University
Belarus	• Belarusian State Medical University • Gomel State Medical University
USA	• Icahn School of Medicine at Mount Sinai • Ohio State University
Vietnam	• University of Medicine and Pharmacy
Russia	• North-West State Medical University

Since 2013
1-2 students/year

Since 2018
2 students/year

Russian-speaking countries

Enrollment in Fukushima Medical University

Admission Capacity

Medical Science Course	About 5 students
Health Nursing Course	About 5 students

Schedule

	August Examination	December Examination
Preliminary Screening for Applicant Qualification	Mid July	Early November.
Application Period	Mid to late July	Mid November
Date of Examination	Early August.	Early December
Announcement of Result	Mid September	Mid January
Enrollment	Early April of the following year	

※ Please check the University website for further details.
